CENTRAL BANK OF THE U.A.E.

United Arab Emirates Monetary, Banking & Financial Markets Developments

2nd Quarter 2015

August 2015

Introduction

As part of its commitment to promote economic and financial stability and growth in the UAE, the Central Bank of the UAE actively fosters a stable and efficient financial system by providing effective central banking services. The *United Arab Emirates Monetary, Banking and Financial Markets Developments Report* is one of the many avenues through which the Central Bank seeks to keep its stakeholders informed.

This report discusses the monetary and banking activities as well as developments in the UAE financial markets during the second quarter of 2015, in comparison to the second quarter of the previous year. The report also reviews ratios of annual change over the period from June 2014 to June 2015.

Monetary Developments

Money Supply M_1 , which comprises Currency In Circulation Outside Banks (Currency Issued - Cash at banks) plus Monetary Deposits, increased by 1.6% during the second quarter of 2015, compared to an increase by 5.4% during the same period last year. On an annual basis, the monetary aggregate M_1 increased by 6.9 %, reaching AED 464.1 billion.

Money Supply M_2 (M_1 plus Quasi Monetary Deposits (saving accounts, time deposits, and all deposits in foreign currencies), increased by 1% during the second quarter of 2015, compared to a quarterly increase by 1.6% during the same period last year. On an annual basis M_2 increased by 4.1%, reaching AED 1,190 billion.

Money Supply M_3 (M_2 plus government deposits at banks and at the Central Bank), decreased by 0.7% during the second quarter of 2015 as compared to a quarterly increase by 3.8% during the second quarter of 2014. On an annual basis, Money Supply M_3 increased by 2 % to reach 1,355.1 billion.

Generally, the median money supply M_2 is considered the best indicator for the availability of liquidity in the economy, as it comprises currency in circulation outside banks, in addition to various deposits of the resident private sector in the UAE. However, statistical data show that, during the second quarter of 2015, this indicator and other monetary aggregates grew at a slower pace compared to the second quarter of 2014. On an annual basis, the growth of M_1 , M_2 and M_3 ranged from 2 % to 6.9% compared to June 2014.

Banking Sector Development

1- Banks Operating in the UAE

The number of locally incorporated banks remained consistent at 23 banks by the end of the second quarter of 2015, while their branches increased from 858 at the end of the second quarter of 2014 to 873 at the end of the same period of 2015. The number of electronic services units of these banks decreased at the end of second quarter of 2015 to 32 -from 33 at the end of June 2014, while the number of Cash Offices increased to 90 by end of June 2015 from 89 at the end of second quarter of 2014.

The number of GCC banks continued to remain constant during the second quarter of 2015 at 6 banks, with 4 branches. However, the number of foreign banks fell to 20 banks with a total of 82 branches. The number of electronic services units of these banks also decreased from 53 units at the end of June 2014 to 48 units at the end of June 2015.

At the end of the second quarter of 2015, the number of financial institutions licensed by the Central Bank, i.e., representative offices, finance companies, financial investment companies, and offices for intermediation in currency trading and money market operations remained constant at 122, 26, 25 and 12, respectively. Whereas, from the second quarter of 2014 to the second quarter of 2015, the number of wholesale banks increased from 5 to 8 and money changers jumped from 137 to 141.

The total number of ATMs of banks operating in the UAE reached 4,921 by the end of June 2015, compared to 4,674 at the end of June 2014 (see table 2 for more details).

2- Bank Assets and Loans

Total assets of banks operating in the UAE increased by 8.2% between the end of the second quarter of 2014 and the end of the second quarter of 2015, reaching AED 2.42 trillion by the end of June 2015.

This hike was mainly brought about by 8.8% increase in credit, reaching AED 1.44 trillion.

3- Customer Deposits

By the second quarter of 2015, total deposits of resident and non-resident customers with banks operating in the UAE also increased by 3.1%, reaching AED 1.44 trillion, compared to the AED 1.40 trillion at the end of the second quarter of 2014. Resident deposits increased by 1.7%, reaching AED 1.29 trillion, compared to the AED 1.27 trillion at the end of the second quarter of 2014. Non-resident deposits increased by 17.2%, reaching AED 155.7 billion, compared to the AED 132.8 billion at the end of the second quarter of 2014.

4- Capital and Reserves

Aggregate capital and reserves of banks operating in the UAE increased from AED 287.2 billion at the end of the second quarter of 2014 to AED 311 billion at the end of the same period of 2015. Capital and reserves increased by 10% during 2015. The total capital adequacy ratios remained well above the 12% Capital Adequacy and 8% Tier1 ratios prescribed by the Central Bank regulations.

Capital adequacy ratios measures the amount of a bank's capital expressed as a percentage of its risk weighted credit exposures. A high capital adequacy ratio provides protection to depositors and promotes the stability and efficiency of the financial system of an economy.

⁽¹⁾Includes credit to residents and non-residents: loans to non-banking financial institutions, Trade Bills Discounted and Loans and Advances to the Government and Public Sector, Private sector (corporate and individuals) in local and foreign currencies.

⁽²⁾Net of inter-bank deposits and bank drafts, but includes commercial prepayments.

⁽³⁾Excluding current year profit & including subordinated borrowings/deposits

*Estimates, subject to revision

5- Foreign Assets of Central Bank

Central Bank's foreign assets increased by 1.5%, from AED 270.46 billion at the end of the second quarter of 2014 to AED 274.57 billion at the end of the second quarter of 2015. This was mainly attributed to an increase in Deposits by 13% and Other Foreign Assets by 13.8% despite a decrease in Held-to-Maturity Foreign Securities by 6.9%.

6- Values in UAE Financial Markets

The UAE financial markets general index rose by 10% during the second quarter of 2015. Market capitalization of companies listed on financial markets also increased from AED 699.2 billion at the end of June 2014 to AED 798.7 billion at the end of June of 2015. However, quarterly trading value fell from AED 180 billion at the end of the second quarter of 2014 to AED 81.8 billion at the end of the corresponding quarter of 2015.
